OPTIAI ®

What's new · 3.2.8 – 3.2.10

Learning, *grown up.*

Lessons from birth to grade 12, kindergarten that sings back, report cards that fill themselves in, and Opti in more of the chat apps you already use.

- 3.2.8 · Safety, kinder calls
- 3.2.9 · Learning Studio
- 3.2.10 · Kindergarten, report cards

New in 3.2.11

Grade 1 joins the narrated lessons, and *households get tidier.*

The lesson player that reads aloud, sings and listens now reaches Grade 1, early-years lessons get opening clips, and you can remove a household you no longer use.

Learning Studio

- Grade 1 lessons open in the narrated player, with spoken answers and hints one at a time
- Early-years lessons with an opening clip show Tap to play; it only plays when your child taps

Households

- Delete a household you own and no longer need, after seeing exactly what will be removed
- Leaving a household always leaves you with one of your own

And more

- Partner months: a partner agency code can give extra months of the paid AI tier
- The app is now simply called Opti on your home screen and in the stores

For everyone, worldwide. The app is free, with an optional plan for higher AI limits. hiopti.com

3.2.8

Safer, calmer, faster

- Calls never ring about something you already did
- Faster, clearer Family Safety, with check-ins you can answer during an SOS
- A quick check confirms who is an adult and who is under 18
- Opti understands family nicknames when adding events

3.2.9 · HEADLINE

Learning Studio

- Plan the week and teach with lessons from kindergarten to grade 12
- Early years from birth to 5, with play activities
- Child accounts: lessons, games, chores and routines only. No ads or tracking
- Care Team and Household Team, each with a limited view

3.2.10

Kindergarten that talks back

- Immersive Kindergarten lessons that read aloud, sing and listen
- Early-years play with new pictures, narration and songs
- Report cards that fill in for you to review
- Opti in Messenger and Instagram, and WhatsApp check-in calls in India

For everyone, worldwide. The app is free, with an optional plan for higher AI limits. Lessons are in English and aligned to US standards (Common Core, NGSS, CSTA).

3.2.9

3.2.10

Report cards that fill themselves in.

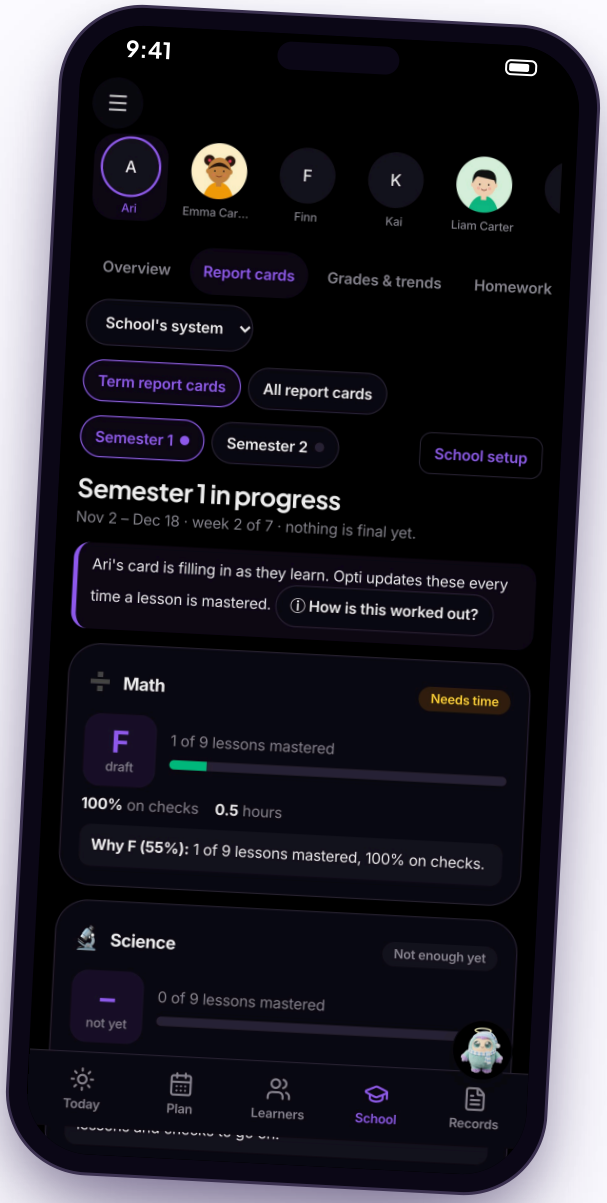

As lessons are mastered, each subject's card updates, with the reason shown. You review and finalize. Add a photo or short video to any milestone or moment, too.

You stay in charge
Cards are drafts until you review them.

Moments, with pictures
Save a photo or short video on a milestone.

HOW A CARD FILLS ITSELF IN

1. **A lesson is mastered**
   Your child finishes it and passes the checks.
2. **The subject card updates**
   The reason is shown, for example "1 of 9 lessons mastered".
3. **You review and finalize**
   Nothing is final until you say so.
